DETAILED ACTION

Allowable Subject Matter

Claims 2, 3, 7-9, 65-67, 69, 70, 73-75 and 79 are allowed.
 Claims 1, 4-6, 10-64, 68, 71, 72, 76-78 and 80-92 have been canceled.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Enter the amendment as follows:

- 1. (Cancelled)
- 2. (Currently Amended) An integrated circuit (IC) package comprising: a substrate supporting at least a die; and

a package stiffener mounted at a perimeter of the substrate directly and not upon an interposer, and arranged apart from the die on the substrate to deliver low-inductance current to the die, via the substrate directly and not via the interposer, while concurrently providing stiffening support to the substrate An IC package as claimed in claim 78.

wherein the package stiffener includes a copper ring split into power and ground portions, and insulating couplers electrically isolating the power and ground portions of the split copper ring.

Application/Control Number: 09/964,586 Page 3

Art Unit: 2811

3. (Previously Presented) An IC package as claimed in claim 2, wherein the split copper ring mounts on the substrate via a solder with a low resistance path to deliver large amounts of current to the substrate and remove heat from the substrate.

4-6. (Cancelled)

- 7. (Currently Amended) An IC package as claimed in claim 2 [[78]] wherein the package stiffener includes one of electrically conductive, insulating, and intermingled electrically conductive and insulating sections, and one of a molded, stamped, etched, extruded and deposited frame, wherein the stiffener is to withstand temperatures of at least normal IC operation.
- 8. (Previously Presented) An IC package as claimed in claim 2, further comprising a heat spreader plate bonded to the split copper ring by epoxy and to the die by thermal interface material.
- 9. (Currently Amended) An IC package as claimed in claim <u>2</u> [[78]], wherein the package stiffener is to support at least partially a heat sink.

10-64. (Canceled)

- 65. (Currently Amended) An integrated circuit (IC) package as claimed in claim 2 [[84]] wherein the package stiffener [[frame]] extends along at least two side edges of the substrate.
- 66. (Currently Amended) An integrated circuit (IC) package as claimed in claim 2 [[84]] wherein the <u>package stiffener</u> [[frame]] is positioned at two separate sections on the substrate.

Application/Control Number: 09/964,586 Page 4

Art Unit: 2811

67. (Currently Amended) An integrated circuit (IC) package as claimed in claim 2 [[84]] wherein the <u>package stiffener</u> [[frame]] is positioned at separate corner edges of the substrate.

68. (Cancelled)

- 69. (Currently Amended) An integrated circuit (IC) package as claimed in claim 2 [[68]] wherein the package stiffener [[frame]] has rounded corners.
- 70. (Currently Amended) An integrated circuit (IC) package as claimed in claim 2 [[84]] wherein the <u>package stiffener</u> [[frame]] and the substrate have similar coefficients of thermal expansion.

71-72. (Cancelled)

- 73. (Currently Amended) An integrated circuit (IC) package as claimed in claim 2 [[72]] wherein the insulating couplers aid in [[the]] structural integrity of the package stiffener [[frame]].
- 74. (Currently Amended) An integrated circuit (IC) package as claimed in claim 2 [[84]] further comprising a spreader plate that couples the <u>package stiffener</u> [[frame]] and the die, wherein the <u>package stiffener</u> [[frame]] and the die are between the spreader plate and the substrate.
- 75. (Currently Amended) An integrated circuit (IC) package as claimed in claim 74 wherein the spreader plate and the <u>package stiffener</u> [[frame]] are integral.

76-78. (Cancelled)

Application/Control Number: 09/964,586

Art Unit: 2811

79. (Currently Amended) An integrated circuit (IC) package as claimed in

claim 2 [[78]] wherein the package stiffener includes a capacitor that includes an

insulator.

80-92. (Cancelled)

Authorization for this examiner's amendment was given in a telephone interview

with Lucianda Price on 9-15-06.

Any comments considered necessary by applicant must be submitted no later

than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on

Statement of Reasons for Allowance."

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

The references of record do not teach the limitations "a package stiffener

mounted at a perimeter of the substrate directly and not upon an interposer, and

arranged apart from the die on the substrate to deliver low-inductance current to the die,

via the substrate directly and not via the interposer" and "wherein the package stiffener

includes a copper ring split into power and ground portions, and insulating couplers

electrically isolating the power and ground portions of the split copper ring" in an IC

package arranged to supply power directly via stiffener.
